Written Testimony

I oppose CB52(2017) because if approved only historic residential properties would be subject to the higher annual minimum tax rate - historic properties represent respect for and preservation not only of a material structure but the preservation of culture and history. I am concerned that if those protecting these significant pieces of the built environment cannot afford to maintain them, they will be lost and more property will fall into the hands of developers. As a historian who has specialized in the relationship between the built environment and social and cultural history, I urge you to oppose CB52 (2017). PLEASE.
